DRESSY OVERCOATS

Between the extremes of style comes this "Regular" style; it is called that, we suppose because wearers never get tired of it.

You see how

Hart Schaffner & Marx

make it; very dressy and just as stylish as the long loose-backed shapes, or the form-fitting kind.

You can't make an overcoat mistake here; there isn't a wrong one in the store; and there are a good many right ones. Better pay a Hart, Schaffner & Marx price and get full money's worth.

Deafness Cannot be Cured.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and LaGrippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. Tell Us Why.

If there is a housewife in Guthrie that honestly thinks our flour is not just as good or better than any brand of flour shipped here. We would like very much for her to call us up by phone and tell us why. Our phone number is 51 and if the product of our mills is not up to the standard we will appreciate and thank anyone for telling us in what way our flour is deficient.

We grind only the best grade of winter hard wheat. We have the best and most up to date milling machinery. We employ millers with years of experience—men who have made a success at milling in some of the largest mills in the United States. Our present head miller is Mr. Fred Beyer formerly with the big mills of Minnesota, such as Washburn-Crosby and Pillsbury. Mr. Beyer and family have better health in Guthrie than in the north, is the reason we can lay claim to having one of the best head millers of the day.

Now then, dear housewife, tell us why you prefer to use flour made elsewhere in preference to flour made in Guthrie. Honestly now, is it because you are opposed to patronizing home industry and don't want to live in a town of factories, or is it because your husband has an ax to grind and tells you to buy only flour made in Kansas or some other point in Oklahoma.

Please tell us why, that's all. Tell a home institution why you can't support it.

ROADS TO BE OPENED.

Indian Territory. Roads Are Not Judges, the Interior Department Says.

Muskogee, I. T., Dec. 11.—The Indian officials here received word from the department of the interior and the department of justice today saying that a decision had been reached in the case of Mianle B. Kane vs. the Missouri Pacific railroad, in which it was held that railroads were subject to the road laws of the territory, which provide that roads shall be opened on all section lines.

The railroads asserted that they had a vested right and that they were to be the sole judges as to where section lines were to be opened for roads across their right of way and to be the judges of all damages. The Indian officials held that they had only an easement of the land through which they build and were subject to the road laws. In this they were upheld by the attorney general, and the comptroller of the currency has notified the Indian agent that the tribal funds can be used to open roads. The Indian police have been ordered to open the roads on all section lines where citizens have demanded it. This order applies to both the Creek and Cherokee nations.
